

Special Issue on Cytokine Research

Call for Papers

Cytokines are small cell-signaling protein molecules that are secreted by numerous cells and are a category of signaling molecules used extensively in intercellular communication. Cytokines can be classified as proteins, peptides, or glycoproteins; the term "cytokine" encompasses a large and diverse family of regulators produced throughout the body by cells of diverse embryological origin.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Cytokine Research**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "Special Issue" under your manuscript title is supposed to be specified and the research field "Special Issue- Cytokine Research" should be chosen during your submission.

According to the following timetable:

Manuscript Due	May 15th, 2013
Publication Date	July 2013

Guest Editor:

Dr. Susanta K. Behura
University of Notre Dame, USA
