Table of Contents

Volume 15 Number 3

July 2025

Inter-Annual Variation and Its Large-Scale Circulation Drivers of October-December Rainfall Onset Date in Tanzania

J. S. Mdelele, G. R. Tan 533

Spatiotemporal Characteristics of Snow Cover and Its Climate Impacts in the Western Tibetan Plateau Region

A. Naqi, C. H. Wang, X. Feng, S. A. Junejo, R. Ahmed, M. Ullah..... 549

Challenges in Energy Transition from Fossil Fuel to Clean Energy

C. J. Liu, X. L. Wang..... 578

Thermodynamic Equilibrium of the Atmosphere

P. Stallnga..... 591

Infrared Backradiation under Low Humidity Conditions: An Evaluation of Greenhouse Gas Impact

E. Hammel, M. Steiner, R. Glaubauf 615

Machine Learning-Based Outlier Detection in Long-Term Climate Data: Evidence from Burkina Faso's Synoptic Network

Z. G. Ki, W. Somda, M. B. Kébré, S. Gandema, F. Dabilgou 645

Time Lag in Changes in Global Temperature and CO₂ Concentration Following Changes in the Oceanic Niño Index

M. Nishioka..... 668

Determination of Flood Risk Thresholds and Analysis of Rainfall Frequency in the Diani Watershed, Forest Guinea

P. D. Guilavogui, M. T. Mamy, B. M. Toure, I. Diaby..... 681

Extreme Wind Speed Modeling across Garoua City and Implications Assessing for the Flight Activities

D. Augustin, M. B. Cesar 696

Spatio-Temporal Variability of Lightning, Thunderstorm and Rainfall Occurrences over Nigeria during MAM Season

E. I. Umoh, R. A. Balogun, Z. D. Adeyewa 709

Subject Coverage

ACS aims to rapidly publish original scientific papers in all the fields of applied and/or climate atmospheric science. It covers the latest achievements and developments in the applied climate and atmospheric sciences, including but not limited to the following scopes as well as the theoretical and practical aspects of these disciplines:

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Agricultural climatology
- Air chemistry and the boundary layer, clouds and weather modification
- Air quality, atmosphere & health
- Applied meteorology
- Atmospheric acoustics, electricity, optics, physics, radiation and sounding
- Atmospheric and oceanic physics
- Atmospheric and solar-terrestrial physics
- Atmospheric chemistry
- Atmospheric environment
- Aviation climatology
- Biometeorology
- Building climatology and forestry climatology
- Climate change and broadcast meteorology
- Climate dynamics and variability
- Climate policy
- Clouds and precipitation physics
- Cosmical meteorology
- Dendroclimatology
- Dynamics of atmospheres and ocean
- Geology and Climate Change
- Hydrology, oceans and atmosphere
- Hydrometeorology
- Marine meteorology and meteorology-associated geophysics
- Medical meteorology and medical climatology
- Meteorological, climatological and atmospheric environmental issues
- Navigation climatology
- Phenology and paleoclimatology
- Polar meteorology
- Radar meteorology and radio meteorology
- Remote sensing
- Satellite meteorology and synoptic meteorology
- Theoretical and applied climatology
- Tropical meteorology
- Weather systems, numerical weather prediction

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **ACS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
