Editors-in-Chief

Prof. Doina Bein	California State University, Fullerton, USA
Prof. Adrian David Cheok AM	Nanjing University of Information Science and Technology, China

Editorial Board

Dr. Shubair Abdulla	Sultan Qaboos University, Oman
Dr. Sangeeta Ahuja	ICAR-Indian Agricultural Statistics Research Institute, India
Prof. George Angelos Anastassiou	The University of Memphis, USA
Prof. Xuesong Dai	Wuxi University, China
Prof. João Paulo Ferreira	Coimbra Institute of Engineering, Portugal
Prof. Sultan Daud Khan	National University of Technology, Pakistan
Dr. Wen-Cheng Lai	National Taiwan University of Science and Technology, Chinese Taipei
Prof. Jose M. Merigo Lindahl	University of Technology Sydney, Australia
Prof. Neelamadhab Padhy	GIET University, India
Prof. Shashidhar R. Joshi	Tribhuvan University, Nepal
Dr. Yilun Shang	Northumbria University, UK
Dr. Muhammad Kamran Siddiqui	COMSATS University Islamabad (CUI), Pakistan
Prof. José Reinaldo Silva	University of São Paulo, Brazil
Dr. K. Muthamil Sudar	Mepco Schlenk Engineering College, India
Prof. Inam Ullah	Gachon University, South Korea
Prof. Junzo Watada	Shimonoseki City University, Japan
Dr. Yadong Xu	The Hong Kong Polytechnic University, China
Prof. Lili Yu	Georgia Southern University, USA

Table of Contents

Volume 2 Number 1

March 2026

**Assessment of Students' Tasks in the Era of Artificial Intelligence: Evidence from
Higher Learning Institutions**

S. Mwakalinga, C. Tweve 1

**Developing Intelligent Algorithm for Enhancing Robotic Factors Affecting
Task Performance Strategical Methods**

Z. L. Lu, A. A. Nicola 17

Advances in Artificial Intelligence and Robotics Research (AIRR)

Journal Information

SUBSCRIPTIONS

The *Advances in Artificial Intelligence and Robotics Research* (Online at Scientific Research Publishing, <https://www.scirp.org/>) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:

Print: \$39 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

Advances in Artificial Intelligence and Robotics Research

ISSN: 3143-3987 (Print) ISSN: 3143-3995 (Online)

<https://www.scirp.org/journal/airr>

Advances in Artificial Intelligence and Robotics Research (AIRR) is an open-access, peer-reviewed journal dedicated to advancing the understanding and innovation of artificial intelligence (AI) and robotics through the publication of cutting-edge theoretical research, methodological breakthroughs, and critical discussions. AIRR aims to serve as a platform for global scholars to share novel insights into AI and robotics fundamentals, algorithms, ethical implications, and their transformative potential across science, technology, and society.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The areas of Advances in Artificial Intelligence and Robotics Research (AIRR) include but are not limited to the following fields:

Artificial Intelligence Technologies

Automated reasoning and knowledge representation
Computer vision and image recognition
Deep learning architectures and applications
Machine learning algorithms and methodologies
Natural language processing and understanding

Applications of AI and Robotics

AI applications in finance, agriculture, and manufacturing
AI in healthcare and medical diagnostics
Smart cities and the Internet of Things (IoT)

Theoretical Advancements

AI-driven optimization techniques
Novel AI and robotics theories and computational models
Quantum computing for AI

Emerging Trends

Edge AI and AI in embedded systems
Explainable and interpretable AI
Innovative AI paradigms and frameworks

Robotics

Human-robot interaction and collaboration
Robot kinematics, dynamics, and control
Robotic perception and sensor fusion
Robotics and autonomous systems
Soft robotics and bio-inspired designs
Swarm robotics and multi-agent systems

Interdisciplinary Research

AI and cognitive science
AI in environmental science and climate change
Human-AI collaboration and interaction

Policy, Ethics, and Society

AI ethics, fairness, and accountability
Regulation and governance in AI
The socio-economic impacts of AI technologies

We are also interested in short papers, as in the form of a letter, that clearly address a specific narrow problem and in papers that survey problems and new results pertaining to a certain topic. Authors may be invited to write short papers on the same topic in more than one successive issue of AIRR.

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
