

Table of Contents

Volume 4 Number 2

March 2014

Numerical Solutions of Second Order Initial Value Problems of Bratu-Type via Optimal Homotopy Asymptotic Method

M. A. Darwish, B. S. Kashkari.....47

An Actual Survey of Dimensionality Reduction

A. Sarveniazi.....55

High Accurate Fourth-order Finite Difference Solutions of the Three Dimensional Poisson's Equation in Cylindrical Coordinate

A. Shiferaw, R. C. Mittal.....73

L-Stable Block Hybrid Second Derivative Algorithm for Parabolic Partial Differential Equations

F. F. Ngwane, S. N. Jator.....87

Derivative of a Determinant with Respect to an Eigenvalue in the Modified Cholesky Decomposition of a Symmetric Matrix, with Applications to Nonlinear Analysis

M. Kashiwagi.....93

Bifurcations of Travelling Wave Solutions for the B(m,n) Equation

M. Z. Wei, Y. J. Gan, S. Q. Tang.....104
