

Table of Contents

Volume 12 Number 1

March 2022

Coulomb, Yukawa, and Hooke's Oscillations

H. Sarafian.....1

Synovial Joint Study

N. O. Al-Atawi, D. S. Mashat.....7

Transitioning from Discrete to Continuous Distribution *Mathematica* vs. Excel

H. Sarafian.....25

Finite Element Analysis of Magnetohydrodynamic Natural Convection within Semi-Circular Top Enclosure with Triangular Obstacles

A. A. Runa, Md. A. Alim, Md. S. Alam, K. H. Kabir.....33

Fifth-Order Comprehensive Adjoint Sensitivity Analysis Methodology for Nonlinear Systems (5th-CASAM-N): I. Mathematical Framework

D. G. Cacuci.....44

Maxwell-Boltzmann Distribution *Mathematica* Based Practitioner's Approach

H. Sarafian.....79

Stress Waves in Polymeric Fluids

K. S. Surana, M. D. Kitchen.....87

Fifth-Order Comprehensive Adjoint Sensitivity Analysis Methodology for Nonlinear Systems (5th-CASAM-N): II. Paradigm Application to a Bernoulli Model Comprising Uncertain Parameters

D. G. Cacuci.....119

On Fermat's Last Theorem and Galaxies of Sequences of Positive Integers

J. M. Mouanda.....162
