

Table of Contents

Volume 13 Number 1

March 2023

Quantization of the Kinetic Energy of Deterministic Chaos

V. A. Miroshnikov.....1

On Fermat Last Theorem: The New Efficient Expression of a Hypothetical Solution as a Function of Its Fermat Divisors

P. K. Kimou.....82

Analyzing Electric Circuits with Computer Algebra

H. Sarafian.....91

Arithmetic Operations of Generalized Trapezoidal Picture Fuzzy Numbers by Vertex Method

M. K. Hasan, A. Sultana, N. K. Mitra.....99

Semi-Implicit Scheme to Solve Allen-Cahn Equation with Different Boundary Conditions

B. Alqanawi, M. A. Aigo.....122

Application of Principal Component Analysis as Properties and Sensory Assessment Tool for Legume Milk Chocolates

P. Selvaraj, A. Sanjeevirayar, A. Shanmugam.....136

On the Numerical Solution of Singular Integral Equation with Degenerate Kernel Using Laguerre Polynomials

K. S. Alroogy, M. A. Aigo.....153

Picture Fuzzy Relations over Picture Fuzzy Sets

M. K. Hasan, A. Sultana, N. K. Mitra.....161

On the Coupled of NBEM and CFEM for an Anisotropic Quasilinear Problem in an Unbounded Domain with a Concave Angle

M. Y. Tu, B. Q. Liu.....185

Diophantine Quotients and Remainders with Applications to Fermat and Pythagorean Equations

P. K. Kimou, F. E. Tanoé.....199
