

Special Issue on Business and Risk Analysis

Call for Papers

Business analysis is the discipline of identifying business needs and discovering solutions to various business problems. The purpose of business analysis is to improve corporate efficiency and obtain maximum commercial value. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Business and Risk Analysis**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Business and Risk Analysis**. Potential topics include, but are not limited to:

- Business value analysis
- Business forecasting
- Business intelligence
- Marketing analytics
- Retail sales analytics
- Supply chain analytics
- Business data analysis
- Business risk and control
- Enterprise analysis
- Requirements planning and management
- Business process analysis
- Decision making and analysis
- Pricing analytics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Business and Risk Analysis**” should be selected during your submission.
