

Special Issue on Economics and Business Research

Call for Papers

Economics and Business Research covers a wide range of issues related to economics and business in the context of globalization and new economy development. It uses economic theory and quantitative methods to analyze business enterprises and the factors contributing to the diversity of organizational structures and the relationships of firms with labor, capital and product markets. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Economics and Business Research.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Economics and Business Research**. Potential topics include, but are not limited to:

- Business administration
- Business and marketing
- Business strategy
- Corporate governance
- Economic theory and policy issues
- Entrepreneurship and business development
- Financial management
- Investment analysis
- Leadership and corporate governance
- Marketing and management issues
- Supply chain management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Economics and Business Research**” should be selected during your submission.
