

Special Issue on
Industrial Economics and Sustainable Development
Call for Papers

Industrial Economics and Sustainable Development refers to the integration of economic principles and practices with sustainable development goals. It encompasses the study and application of sustainable practices in various industrial sectors, taking into account social, environmental, and economic considerations. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of industrial economics and sustainable development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Industrial Economics and Sustainable Development**. Potential topics include, but are not limited to:

- Industrialization and economic development
- Sustainable industrial practices
- Circular economy and resource efficiency
- Green manufacturing and sustainable production processes
- Industrial policy and sustainable development goals
- Industrial wastewater treatment and reuse technologies
- Smart manufacturing and industry
- Sustainable supply chains and responsible sourcing
- Sustainable materials and product design
- Sustainable industrialization
- Sustainable production

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Industrial Economics and Sustainable Development**” should be selected during your submission.
