

Special Issue on
Advances in Industrial Economics and Sustainable Growth
Call for Papers

Advances in Industrial Economics and Sustainable Growth focuses on exploring the intersection of industrial development, economic performance, and sustainable practices. It seeks research that examines industrial policy, innovation, productivity, and competitiveness while emphasizing environmentally responsible growth, resource efficiency, and green technologies. Contributions may cover topics such as circular economy strategies, low-carbon industrial transformation, sustainable manufacturing, and economic diversification. By integrating theoretical analysis with empirical studies, this issue aims to provide insights into fostering resilient, inclusive, and sustainable industrial and economic development in a rapidly evolving global landscape.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Advances in Industrial Economics and Sustainable Growth**. Potential topics include, but are not limited to:

- Circular economy
- Corporate sustainability
- Economic diversification
- Energy efficiency
- Environmental economics
- Green growth
- Industrial competitiveness
- Industrial economics
- Industrial policy
- Industrial transformation
- Innovation and productivity
- Low-carbon economy
- Resource efficiency
- Sustainable development
- Sustainable manufacturing
- Technological innovation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Advances in Industrial Economics and Sustainable Growth***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 5th, 2026
Publication Date	April 2026
