Table of Contents

Volume 8 Number 5

September 2018

Fast Computation of Pareto Set for Bicriteria Linear Programs with Application to a Diet Formulation Problem

F. Dubeau, M. E. N. Habingabwa.....323

A Continuous Review Inventory System with Lost Sales and Emergency Orders

M. Haughton, K. P. S. Isotupa.....343

Dose-Injury Relation as a Model for Uncertainty Propagation from Input Dose to Target Dose

H. Wang, W. A. Burgei, H. Zhou.....360

Self-Organized Bike Redistribution in Urban City

Y. H. Chi.....386

The 0/1 Multidimensional Knapsack Problem and Its Variants: A Survey of Practical Models and Heuristic Approaches

S. Laabadi, M. Naimi, H. El Amri, B. Achchab.....395

Subject Coverage

This journal invites original research and review papers that address the following issues in operations research. Topics of interest include, but are not limited to:

1. Operations Research and Optimization Theory and Research Technical Approaches

Computational Intelligence and Information Management
 Continuous Optimization
 Decision Support Systems, Multi-Criteria Decision Methods
 Discrete Optimization
 Expert Systems
 Heuristics Mathematical Programming
 Networks
 Queues
 Simulation
 Stochastic Models and Statistics
 Time Series Analysis

2. Manufacturing and Service Operations Research

Forecasting
 Inventory
 Location
 Logistics, Transportation Warehousing and Maintenance
 Planning and Scheduling
 Product and Service Design

Project Management
 Quality Management
 Revenue Management
 Supply Chain Management

3. Interfaces with Other Disciplines

Community Operations Research
 Complex Systems
 Education Operations Research
 Environmental and Energy Issues
 Financial Engineering
 Government Operations Research
 Health Services Operations Research
 Marketing Science
 Military and Homeland Security
 Operations Research in Nonprofit Organization
 Policy Modeling and Public Sector OR
 Productivity and Efficiency in the Public Sector
 Sports Operations Research
 Telecommunications and Networking

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the AJOR.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
