

TABLE OF CONTENTS

Volume 4 Number 11B

November 2013

Controlling Unstable Discrete Chaos and Hyperchaos Systems

X. Li, S. P. Qian.....1

Chaos Synchronization of Uncertain Lorenz System via Single State Variable Feedback

F. X. Chen, T. Zhang.....7

Hybrid Synchronization of a Chen Hyper-Chaotic System with Two Simple Linear Feedback Controllers

G. M. Xu, S. H. Chen.....13

Conditions Where the Chaotic Set Has a Non-Empty Residual Julia Set for Two Classes of Meromorphic Functions

P. Domínguez, I. Hernández.....18

Chaotic Fractal Tiling for the Missing Dark Energy and Veneziano Model

L. Marek-Crnjac, M. S. El Naschie.....22

Dense Fractal Networks, Trends, Noises and Switches in Homeostasis Regulation of Shannon Entropy for Chromosomes' Activity in Living Cells for Medical Diagnostics

N. E. Galich.....30

The figure on the front cover is from the article published in *Applied Mathematics*, 2013, Vol. 4, No. 11B, pp. 18-21 by Patricia Domínguez and Iván Hernández.
