

Special Issue on Parkinson's Disease: Diagnosis and Therapies

Call for Papers

Parkinson's Disease: Diagnosis and Therapies explores contemporary approaches to identifying, characterizing, and managing Parkinson's disease, with emphasis on clinical assessment, disease progression, and emerging therapeutic strategies. Research in this area includes early and differential diagnosis, motor and non-motor manifestations, neuroimaging, molecular and digital biomarkers, and the underlying mechanisms of dopaminergic neuronal dysfunction. Therapeutic investigations encompass pharmacological treatment, advanced drug delivery, deep brain stimulation, focused ultrasound, rehabilitation, exercise-based interventions, and developing approaches such as gene therapy, cell-based therapies, and targeted treatments for disease-related molecular pathways. The topic provides a platform for research aimed at improving diagnostic accuracy, symptom management, quality of life, and the development of innovative interventions for Parkinson's disease.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Parkinson's Disease: Diagnosis and Therapies**. Potential topics include, but are not limited to:

- Early diagnosis
- Differential diagnosis
- Clinical assessment
- Biomarker discovery
- Neuroimaging
- Digital diagnostics
- Genetic factors
- Molecular mechanisms
- Dopaminergic dysfunction
- Pharmacological therapies
- Dopamine replacement
- Advanced drug delivery
- Deep brain stimulation
- Focused ultrasound
- Neurorehabilitation
- Emerging therapies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Parkinson's Disease: Diagnosis and Therapies**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 26th, 2027
Publication Date	March 2027
