

Special Issue on
Mathematical Optimization and Applications
Call for Papers

In mathematics, computer science and operations research, mathematical optimization is the selection of a best element from some set of available alternatives. In the simplest case, an optimization problem consists of maximizing or minimizing a real function by systematically choosing input values from within an allowed set and computing the value of the function. The generalization of optimization theory and techniques to other formulations constitutes a large area of applied mathematics. More generally, optimization includes finding "best available" values of some objective function given a defined domain (or input), including a variety of different types of objective functions and different types of domains.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Mathematical Optimization and Applications**. Potential topics include, but are not limited to:

- Multi-objective optimization
- Computational optimization techniques
- Optimization algorithms
- Iterative methods and global convergence
- Feasibility problem
- Global and local optimization
- Maximization, minimization and best solutions
- Operational efficiency and best performance
- Modelling and methods
- Optimal control and optimization
- Applications in economics, engineering and computer science

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Mathematical Optimization and Applications**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

Advances in Pure Mathematics

ISSN Online: 2160-0384

Submission Deadline	March 25th, 2021
Publication Date	May 2021

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
