Special Issue on

Education Communications and Technology

Call for Papers

Educational technology is the use of technology to improve education. With the development of information technology, modern educational technology is used more and more in schools. The extensive use of internet and multimedia has changed the way of teaching and learning, which is becoming more and more flexible.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **educational communications and technology**. Potential topics include, but are not limited to:

- Education communication
- Educational informationization
- Education technology
- Blending learning
- Digital learning
- Instructional media design
- Teaching process design
- Information technology and curriculum integration
- Applications

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Education Communications and Technology***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 25th, 2016
Publication Date	April 2016
