

Special Issue on
Excellence, Innovation & Creativity in Education
Call for Papers

Excellence, Innovation & Creativity in Education focuses on advancing teaching and learning through innovative pedagogies, creative practices and excellence-oriented educational strategies. This field explores curriculum design, learning technologies, teacher development and student-centered approaches that foster critical thinking, problem-solving, and creativity. It also examines how educational leadership, policy, and learning environments support high-quality outcomes, lifelong learning and the development of innovative capacities in diverse educational contexts.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Excellence, Innovation & Creativity in Education**. Potential topics include, but are not limited to:

- Pedagogical innovation: new methods and strategies
- Creativity development in learners
- Cognitive and learning sciences
- Excellence and innovation in teaching and learning
- Creative classrooms and learning environments
- Curriculum design and development
- Teacher professional development and innovation
- Creative teachers and effective teaching
- Assessment and evaluation of creative learning
- STEM education
- Arts integration in education
- Gifted and talented education
- Social-emotional learning and creative climates
- Creativity and motivation in education
- Educational psychology: promote excellence in education
