

Special Issue on Education and Information Technologies

Call for Papers

Education and Information Technologies explores the integration of digital tools and technologies into teaching, learning and educational management. It examines how software, online platforms, multimedia and emerging technologies like AI and virtual reality enhance learning experiences, engagement, and accessibility. The field also studies instructional design, e-learning systems, educational data analytics and the impact of technology on student outcomes, teacher practices and institutional effectiveness, aiming to improve both formal and informal education in diverse contexts.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Education and Information Technologies**. Potential topics include, but are not limited to:

- E-learning
- Distance education and online learning
- Educational data mining and learning analytics
- Web-based learning and mobile learning
- Instructional design and technology
- Digital literacy and competency
- Gamification and game-based learning
- Online, blended & hybrid learning design
- Collaborative and social learning technologies
- Virtual reality and augmented reality in education
- Artificial intelligence in education
- Mobile learning
- ICT in education
- Digital literacy and competency development
- Digital educational resources and materials
- Educational robotics
- Intelligent educational systems
- Technology integration & teacher professional development
- Learning management systems & virtual learning environments
- Special education and assistive technologies
- Social media in education
- Digital equity and access
- Emerging technologies in education

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Education and Information Technologies**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 3rd, 2026
Publication Date	August 2026
