

Special Issue on
Education, Learning and Skills Development
Call for Papers

Education, Learning and Skills Development is an interdisciplinary field focused on improving educational practices, learning experiences, and the development of knowledge and competencies. It encompasses curriculum design, innovative teaching methods, digital learning, vocational education, professional training, competency-based assessment and lifelong learning. The field aims to enhance learning outcomes, strengthen practical and transferable skills, improve employability, and prepare individuals to adapt to evolving workplace requirements and societal changes.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Education, Learning and Skills Development**. Potential topics include, but are not limited to:

- Learning Skills and Styles
- Innovative Teaching and Learning Strategies
- Curriculum Design and Development
- Digital Learning and Educational Technology
- Technical and Vocational Education and Training (TVET)
- Professional Development and Continuing Education
- Cognitive and Creative Skill Development
- Collaboration, Innovation and Leadership
