

Special Issue on Case Reports in Cardiology

Call for Papers

Case report is a detailed report of the symptoms, signs, diagnosis, treatment, and follow-up of an individual patient, providing feedback on clinical practice guidelines and offer a framework for early signals of effectiveness, adverse events, and cost. Case reports in cardiology deals with case reports on congenital heart defects, coronary artery disease, heart failure, valvular heart disease and electrophysiology

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Case Reports in Cardiology**. Potential topics include, but are not limited to:

- Cardiac surgery report
- Case report of cardiac angiosarcoma
- Heart failure report
- Case report of hypertrophic cardiomyopathy
- Congenital heart disease
- Cardiovascular disease
- Valvular heart disease
- Myocardial infarction
- Coronary artery disease
- Pediatric cardiology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Case Reports in Cardiology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 23rd, 2021
Publication Date	February 2022
