
Special Issue on Case Reports in Neurological Medicine

Call for Papers

Case Reports in Neurological Medicine focuses on detailed clinical descriptions of individual patients with neurological conditions. It highlights unique, rare or complex cases involving disorders of the brain, spinal cord and nervous system. This field contributes to medical knowledge by documenting symptoms, diagnoses, treatments and outcomes, helping clinicians recognize unusual presentations, improve decision-making and generate hypotheses for further research.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Case Reports in Neurological Medicine**. Potential topics include, but are not limited to:

- Stroke and cerebrovascular case reports
