

Special Issue on Clinical Case Reports in Cardiology

Call for Papers

Clinical Case Reports in Cardiology focuses on documenting and analyzing rare, unusual, or clinically significant cardiovascular cases. It covers atypical disease presentations, diagnostic challenges, novel treatment approaches, complications and patient outcomes. The topic aims to share valuable clinical experiences and practical insights, improve understanding of complex cardiovascular conditions, and support advances in diagnosis, treatment and patient care.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Clinical Case Reports in Cardiology**. Potential topics include, but are not limited to:

- Coronary Artery Disease and Acute Coronary Syndromes
- Heart Failure and Cardiomyopathies
- Cardiac Arrhythmias and Electrophysiology
- Valvular Heart Disease
- Congenital Heart Disease
- Cardiac Surgery Case Studies
- Cardio-oncology
- Interventional and Structural Cardiology
- Vascular and Aortic Diseases
- Pericardial and Myocardial Diseases
- Cardiac Imaging and Diagnostic Cardiology
- Cardiovascular Pharmacotherapy and Adverse Reactions
- Rare and Complex Cardiovascular Cases
- Cardiovascular Complications and Comorbidities
- Preventive Cardiology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Clinical Case Reports in Cardiology**” should be chosen during your submission.

According to the following timetable:
