

TABLE OF CONTENTS

Volume 5 Supplement

January 2013

Distributed Intelligent Microgrid Control Using Multi-Agent Systems	
I.-Y. Chung, C.-H., S.-J. Oh.....	1
Development of Fault Management Dispatcher Training Simulator for TDAS in Korea	
I.-Y. Seo, S.-O. Kim, B.-N. Ha.....	7
A Parallel Processing Uninterruptible Power Supply for Sudden Voltage Fluctuation for Power Management	
S.-H. Ko, S.-R. Lee.....	13
Design of Mv/Lv Substation Transformer	
S. Messalti, F. Zitouni, I. Griche.....	20
Figure of Merit Analysis of a Hybrid Solar-Geothermal Power Plant	
C. Zhou, E. Doroodchi, B. Moghtaderi.....	26
Overall Framework and Module of Distribution Network Coordinated Planning Considering Distributed Generation	
Q. J. Liu, H. H. Liu.....	32
Measurements of the Electrical Incidence Angle Modifiers of an Asymmetrical Photovoltaic/Thermal Compound Parabolic Concentrating-Collector	
B. Ricardo, D. Henrik, G. Niko, G. João, G. Christian, C. Luis, M. Chabu, K. Björn.....	37
An Integrated Control Strategy Adopting Droop Control with Virtual Inductance in Microgrid	
J. J. Su, J. Y. Zheng, D. M. Cui, X. B. Li, Z. J. Hu, C. X. Zhang.....	44
Optimal Design of Photovoltaic–Battery Systems Using Interval Type-2 Fuzzy Adaptive Genetic Algorithm	
O. Penangsang, M. Abdillah, R. S. Wibowo, A. Soeprijanto.....	50
Assessment of the Energy Impact of Using Building Integrated Photovoltaic and Electrochromic Glazing in Office Building in UAE	
M. Katanbafnasab, B. Abu-Hijleh.....	56
Performance Analysis of PV Energy System in Western Region of Saudi Arabia	
M. Anwari, A. Hiendro.....	62
Mechanical Stress Analysis of a 600MW Supercritical Boiler Superheater Outlet Header	
D. Y. Li, Z. G. Fu, Q. Zhang, T. He.....	66
Numerical Study of a Confined Axisymmetric Jet Impingement Heat Transfer with Nanofluids	
J.-B. Huang, J.-Y. Jang.....	69
Construction of a Small Scale Laboratory for Solar Collectors and Solar Cells in a Developing Country	
G. Niko, D. Henrik, B. Ricardo, G. Joao, G. Christian, C. Luis, M. Chabu, K. Björn.....	75
A Wind-Solar-Energy Storage System Leading to High Renewable Penetration in the Island System of Kinmen	
Y.-K. Wu, C.-Y. Lee, B.-S. Jan, Y.-Q. Huang.....	81
A Gain Scheduled Method for Speed Control of Wind Driven Doubly Fed Induction Generator	
W. Wang, K.-Z. Liu, T. Zanna.....	89
Simulation and Analysis of PMSG-based Wind Energy Conversion System using Different Converter Models	
H. Ye, J. Su, S. H. Du.....	96

A New Type of Damper and Its Field Tests on Ice-coating Transmission Lines	
W.-L. Zhong, W. Wang, H.-H. Chen, W. Luo, Y.-C. Song.....	101
Annual Maximum Loads Estimation Modeling for Kingdom of Bahrain	
I. S. Qamber.....	104
Seasonal Regression Models for Electricity Consumption Characteristics Analysis	
Y. S. Akil, H. Miyauchi.....	108
The Research about the Trans-provincial Centralized Bidding Trading Market of East China Power Grid --I: Empirical Analysis	
B. Zou, X.-J. Wang, X.-G. Li, L.-B. Yang.....	115
The Research about the Trans-provincial Centralized Bidding Trading Market of East China Power Grid --II: Model Analysis	
B. Zou, J. Fan, X.-G. Li, L. -B. Yang.....	121
The Discussion of 500kV Centralized Monitoring System for Large Operation and Large Maintenance Mode	
L. L. Shuai, X. J. Liu, J. Li.....	127
Energy Saving Potential Due to Refurbishment of Federal Public Housing in the UAE	
W. AlAwadhi, A. AlNaqbi, A. Manneh, A. Kazim, B. Abu-Hijleh.....	132
Advanced Burst Mode Control to Reduce the Standby Power of Flyback Converter	
M.-S. Kim, H.-W. Kim, J.-H. Jang, K.-H. Kim, K.-S. Seo, N.-K. Kim, Y.-H. Kim.....	137
Design of DC-DC Converter for Flash Memory IPs	
L. Y. Jin, W.-Y. Jung, J.-H. Jang, M.-S. Kim, M.-S. Kim, H. Park, P.-B. Ha, Y.-H. Kim.....	142
Live Line Measuring the Parameters of 220 kV Transmission Lines with Mutual Inductance in Hainan Power Grid	
Z. Z. Xu, Z. J. Hu, C. Q. Li.....	146
Noise Source Identification Applied in Electric Power Industry Using Microphone Arrays	
P. X. Teng, R. L. Chen, Y. C. Yang.....	152
Differential Evolution Immunized Ant Colony Optimization Technique in Solving Economic Load Dispatch Problem	
N. A. Rahmat, I. Musirin.....	157
Planning of Anti-Disaster Transformer Substation Based on NN and PSO	
T. Wang, Q. J. Tang, X. L. Yang, X. D. Liu.....	163
Utilizing Stability Index Tracing for Precise Load Buses Identification in Load Shedding Problem	
Z. Hamid, I. Musirin, M. M. Othman.....	168
Operation Indices for Smart Power Dispatch Center Design	
J. N. Liu, P. M. Li, J. Zhong, L. Liang.....	174
Application of STATCOM for Damping Subsynchronous Resonance in a Multi-machine System	
Y. L. Sun, L. G. Ban, D. Y. Yang, Y. Z. Wang.....	180
Testing Bifacial PV Cells in Symmetric and Asymmetric Concentrating CPC Collectors	
G. João, H. Davidsson, G. Christian, M. Stefan, K. Björn.....	185
Approach of Training Working Staff of Power System Operation Mode Based on State Evaluation	
Q. Feng, Y. P. Fan, C. Liu, Y. F. Ai.....	191
Optimal Load Dispatch of Gas Turbine Power Generation Units based on Multiple Population Genetic Algorithm	
H. Xiao, C. Yang, J. Wu, X. Q. Ma.....	197

3D conceptual modelling and direct utilization calculations of the Albanian geothermal resources	
N. Kodhelaj, A. Bode.....	202
Coordinated Voltage Control in Distribution Network with Renewable Energy based Distributed Generation	
M. K. N. M. Sarmin, W. Nakawiro, M. Wanik, M. F. Siam, Z. F. Hussien, A. A. Ibrahim, A. K. M. Hussin.....	208
Harmonic Measurement and Analysis during Electric Vehicle Charging	
M. Z. C. Wanik, M. F. Siam, A. A. Subiyanto, A. Mohamed, A. HanifahAzit, S. Sulaiman, M. A. M. Ali, Z. F. Hussein, A. K. MatHussin.....	215
Randomized Integral Gain of Pi Current Controller for A Single Pv Inverter System	
S. Salimin, M. Armstrong, B. Zahawi.....	221
