

Special Issue on Engineering Management

Call for Papers

Engineering Management is an interdisciplinary field that combines principles of engineering, business, and management to effectively plan, organize, and lead engineering projects and organizations. The goal of this special issue is to provide a platform for scientists and academics all over the world to promote, share and discuss various new issues and developments in **Engineering Management**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Engineering Management**. In this special issue, potential topics include, but are not limited to:

- Project management
- Operations management
- Organizational behavior and leadership
- Innovation and technology management
- Real estate management
- Project investment and cost management
- International project contracting
- Bidding and quotation decision
- Project cost analysis
- Innovation process management
- Technological forecasting and strategic planning

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Engineering Management**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 5th, 2026
Publication Date	October 2026

Guest Editor:

Prof. Chung-Han Tsai, Chief Special Researcher at the Real Estate Information Research Center of Renmin University of China.

Aps. Prof. Joseph I. T. Buertey, Pentecost University, Accra, Ghana.
