

Special Issue on Electrical Engineering

Call for Papers

Electrical and electronics engineering, the branch of engineering concerned with the practical applications of electricity in all its forms, including those of the field of electronics. The goal of this special issue is to provide a platform for scientists and academics all over the world to promote, share and discuss various new issues and developments in **Electrical Engineering**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Electrical Engineering**. In this special issue, potential topics include, but are not limited to:

- Electric power systems
- Smart grid approaches to power transmission and distribution
- Power system planning
- Power electronic technology
- Power drag automatic control system
- Electrical control technology and PLC application
- Microcomputer control technology
- Power system analysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Electrical Engineering**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	July 15th, 2026
Publication Date	September 2025

Guest Editor:

Dr. Chao Liu, China Electric Power Research Institute, China.
