Forensic Medicine and Anatomy Research (FMAR) is a peer-reviewed, open access journal. The goal of this journal is to provide a platform for doctors and academicians all over the world to promote, share, and discuss original investigations, observations, scholarly inquiries, reviews and developments in the various branches of the anatomy sciences and forensic sciences.

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Forensic Medicine and Anatomy Research (FMAR) include but are not limited to the following fields:

- Anatomical Sciences
- Anatomy and Physiology
- Case Reports in Anatomy
- Clinical Anatomy
- Clinical Forensic Medicine
- Forensic Analytical Chemistry
- Forensic Anthropology
- Forensic Biology
- Forensic Education
- Forensic Entomology
- Forensic Genetics
- Forensic Microbiology
- Forensic Odontology
- Forensic Osteology
- Forensic Pathology
- Forensic Physical Evidence
- Forensic Psychiatry
- Forensic Radiology
- Forensic Serology
- Forensic Sociology
- Forensic Thanatology
- Forensic Toxicology
- Gross Anatomy
- Histology
- Medicolegal History
- Neuroanatomy
- Periodontal Anatomy
- Sectional and Imaging Anatomy
- Surgical and Radiologic Anatomy

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
