

Special Issue on Food and Beverage

Call for Papers

Food and Beverage explores the science, technology, production, quality, safety, nutrition, sustainability, and management of food and beverage systems. It covers topics such as food processing, beverage innovation, functional foods and drinks, food chemistry, microbiology, sensory evaluation, consumer behavior, food supply chains, packaging, and regulatory issues. The field also addresses emerging challenges related to food security, sustainable production, health and nutrition, alternative ingredients, and digital transformation in the food and beverage industry. By integrating scientific research with industrial applications, Food and Beverage aims to enhance product quality, promote public health, support sustainable development, and foster innovation across the global food and beverage sector.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Food and Beverage**. Potential topics include, but are not limited to:

- Beverage science
- Beverage technology
- Beverage quality and safety
- Beverage packaging and shelf-life
- Beverage product innovation
- Brewing science
- Fermentation science
- Coffee research
- Tea studies
- Juice technology
- Dairy beverage science
- Plant-based beverages
- Functional beverages
- Carbonated beverages
- Wine studies
- Spirits and distillation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Food and Beverage**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 12th, 2026
Publication Date	December 2026
