Georgia Southern University, USA

Table of Contents

Volume 13 Number 2

February 2025

Basics of Biogas Production on the Absheron Peninsula

R. S. Ali, A. M. Ilgar 1

Research of Landslide Areas Developed in the Influence Zone of the Right Slope of the Zhinvali Reservoir to Determine Their Dynamics for the Purpose of Traffic Safety

Z. Varazashvili, Z. Kakulia, I. Ramishvili, G. Gaprindashvili, G. Chakhaia,
G. Tlashadze, D. Chutkerashvili 10

Research on the Development Characteristics and Stages of Cracks in Dongjiahe River Using Tilt Photogrammetry Technology

L. Liang 22

Physical Origins of Spatial Pattern of Summer Extreme High Temperature Days over Northern Africa

N. S. Mosha, D. S. Sengomba, C. Y. Ntigwaza, D. J. Masunga 32

Efficient Identification Method of Interbeds Based on Neural Network Combined with Grey Relational Analysis

Y. B. Song, Y. K. Zhu, B. X. Zeng 51

Impact of Stratigraphically Unpositioned Saline Units on Electrical Resistivity in Geothermal Potential Investigations: Case Study Area Eldivan (Çankiri, Türkiye)

H. Bölük 69

Key Factors Governing the Carbon Footprint of Operational Activities at Khalda Petroleum Company

A. E. S. Rakha, M. K. El Shiekh 86

Trends and Prospects from Climatic Research of Inner-Niger-Delta Wetland: A Bibliometric Analysis

M. I. Maiga, S. Sanogo, E. A. Adefisan 108

Factors behind the Upsurge in Flooding in Abobo (Abidjan-Côte d'Ivoire)

B. K. Marcel 126

Full Use of Hydrogeological-Geomechanical Parameters for 3d Stability Analysis in an Open-Pit Iron Mine with Complex Geometry

V. F. N. Torres 136

Assessment of NO_x Emissions in Combustion Engines for Thermoelectric Power Plants: An Approach with the R and Screen View Programs

E. dos Santos Piropo, A. M. S. Ferreira, A. P. G. Filho 161

Structural Evolution of Kollapur Region in the Northwestern Margin of Cuddapah Basin and, Eastern Dharwar Craton, South India: New Insights from Gravity Anomalies

L. S. Jogu, U. L. Gakka 177

Waste Management Issues at the Kisangani Central Market, Practices and Associated Factors

F. Esuka Igabuchia, J. Panda Lukongo, E. Basandja Longembe, A. Tagoto Tepungipame,
G. Boande Losangola, T. Yanyongo Twangaka, R. Iseyembele Bosalo, J. Losimba Likwela 199

Estimation of Soil Erosion Dynamics through Rusle Model in Gilgit Baltistan, Pakistan

N. Tayyab, M. A. Khan, A. Alamgir, T. M. A. Khan, N. Sulman 215

Land Use/Land Cover Dynamics and Future Changes Using a CA-Markov Model in the Mount Nlonako Forest and Peripheries (Littoral, Cameroon)

F. M. D. Douandji, B. Y. Kamga, L. N. Ndumbe, A. D. T. Nkondjoua, M. L. Ngoh, V. F. Nguetsop 230

A Bibliometric Analysis of Habitat Quality Studies in Ecologically Vulnerable Areas of China

Y. J. Yang 261

Analysis by Numerical Simulation of the Geotechnical Behavior of Mining Slopes under the Influence of the Variations of the Geometric and Mechanical Parameters of the Bench Using RocScience (Slide Module Version 6.020): Case of an Open-Pit Mine

S. Kone, Y. Berthé, D. Y. Traoré, R. El Ghastalany 275

Microclimate Indicators and Air Dust Dynamics around a Tropical Highland Open Pit Mine, Amid Progressive Ecological Rehabilitation

L. B. Basima, V. M. Nshombo, J.-B. B. Muhigwa, C. K. Alfred, C. Kalikone 299

Surface and Groundwater Quality and Flow Dynamics around a Tropical Highland Open Pit Mine, Amid Progressive Ecological Rehabilitation

L. B. Basima, J.-B. B. Muhigwa, V. M. Nshombo, C. Kalikone, P. Vualu 321

Call_for_Papers

Journal of Geoscience and Environment Protection (GEP)

ISSN 2327-4336 (Print) ISSN 2327-4344 (Online)

<https://www.scirp.org/journal/gep>

Journal of Geosciences and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

Environmental Protection

- Air Pollution
- Chemical Pollution
- Climate Change
- Disasters Management
- Environmental Earth Sciences
- Environmental Geology and Rehabilitation
- Environmental Law and Policies
- Environmental Risk
- Global Environmental Protection Technology
- Global Warming
- Landfill Waste Management
- Mineral Processing, Waste Management and Recycling
- Nuclear Energy and Environmental Protection
- Pollution Control and Technologies
- Soil Environment and Soil Science in Other Disciplines
- Sustainability of Resources and Environment
- Waste Water Management and Aquaculture
- Water Engineering
- Water Resources Management and Water Quality

Geoscience

- BioGeomarkers and Their Significance for Astrogeology and Astrobiology
- Crystallography and Mineralogy
- Education and Capacity Building in Geosciences
- Endogenous, Exogenous Petrology and Geochemistry
- Energy and Mineral Deposits
- Geodynamics
- Geoethics
- Geographic Information Science
- Geological Collections and Museology
- Geophysics
- Hydrology and Hydrogeology
- International Partnership in Geosciences
- Medical and Forensic Geology
- Meteorites and Planetary Geology
- Natural Hazards
- Paleontology
- Statistics and Data Analysis in Geology
- Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
