

Special Issue on Geography and Environment

Call for Papers

The connection between people and the environment, built and natural, is the crux of both geography and conservation. Geographers study and conservationists worry about the environment over the same breadth of space and time. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Geography and Environment**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Geography and Environment**. In this special issue, potential topics include, but are not limited to:

- Landscape ecology
- Economic geography
- Geographical technologies
- Geographical environment and climate
- Natural environment
- Human and nature
- Geomorphology analysis
- Coastal science and management
- Environmental monitoring and mapping

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Geography and Environment**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 8th, 2022
Publication Date	November 2022
