

Special Issue on Environmental Protection

Call for Papers

Environmental research has led to technologic advances and improved policies that have resulted in enormous improvements in environmental quality and public health which may have saved lives and reduced healthcare costs nationwide. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **environmental protection**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **environmental protection**. In this special issue, potential topics include, but are not limited to:

- Causes of environmental degradation
- Effects of environmental degradation
- Ecosystem restoration, toxicology
- Environment assessment and policy
- Land conservation
- Protection and renewal of water resources
- Environmental conservation and protection
- Future challenges to environmental sustainability
- Risk assessment and reliability engineering
- Technical safety and loss prevention
- Chemical toxicity and exposure assessment
- Air pollution prevention and treatment
- Resource and waste management
- Water pollution prevention and treatment

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Environmental Protection**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 23rd, 2023
Publication Date	June 2023

Scientific Research
Open Access

**Journal of Geoscience and
Environment Protection**
ISSN Online: 2327- 4344
