HEALTH is an international journal dedicated to the latest advancement of human health. The goal of this journal is to provide a platform for doctors and academicians all over the world to promote, share, and discuss various new issues and developments in health related problems. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers.

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

→ Notes for Intending Authors

Submitted papers should not be previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. For more details, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
