

Special Issue on

Sexual and Reproductive Health and Well-being

Call for Papers

Sexual and Reproductive Health and Well-being is an interdisciplinary academic field that examines the physical, psychological, social and emotional dimensions of sexual and reproductive health across the lifespan. It covers topics such as reproductive healthcare, fertility, contraception, maternal health, sexual function, sexually transmitted infections and gender equity. The field integrates perspectives from medicine, public health, psychology, sociology and policy to promote healthy relationships, informed choices, and improved quality of life and well-being.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Sexual and Reproductive Health and Well-being**. Potential topics include, but are not limited to:

- Sexual dysfunction & disorders
