

TABLE OF CONTENTS

Volume 2 Number 1

March 2012

Dependence of the GRB Lag-Luminosity Relation on Redshift in the Source Frame

W. J. Azzam.....1

Revised Newtonian Formula of Gravity and Equation of Cosmology in Flat Space-Time Transformed from Schwarzschild Solution

X. C. Mei, P. Yu.....6

Two Parameters Analytical Solution for the Stellar Density in Globular Clusters

M. A. Sharaf, A. A. Sharaf, A. A. H. Alshaery.....19

Stonehenge Has Got a Younger Sister Ales Stones in Sweden Decoded

N.-A. Mörner, B. G. Lind.....23

Large-Eddy Simulation of the Three-Dimensional Experiment on Richtmyer-Meshkov Instability Induced Turbulence

J. S. Bai, T. Wang, K. Liu, L. Li, M. Zhong, Y. Jiang, M. Tang, J. D. Yu, X. Y. Pei, P. Li.....28

Why Do the Main Sequence Stars Have Similar Chemical Composition?

S. Halas, T. Durakiewicz.....37

Surface Photometry and Dynamical Properties of Lenticular Galaxies: NGC3245 as Case Study

M. A. Sharaf, K. Mahmoud, E. Aly, A. A. Alshaery.....39

Doppler Boosting May Have Played No Significant Role in the Finding Surveys of Radio-Loud Quasars

M. B. Bell.....52

The figure on the front cover is from the article published in *International Journal of Astronomy and Astrophysics*, 2012, Vol. 2, No. 1, pp. 23-27 by Nils-Axel Mörner and Bob G. Lind.
