

Table of Contents

Volume 5 Number 3

September 2015

Flat Space Cosmology as a Mathematical Model of Quantum Gravity or Quantum Cosmology	
E. T. Tatum, U. V. S. Seshavatharam, S. Lakshminarayana.....	133
Expected Radial Column Density of Methylcyanopolynes in CW Leonis (IRC+10216)	
R. G. E. Morales, C. Hernández.....	141
Use of an Energy-Like Integral to Study the Motion of an Axi-Symmetric Satellite under Drag and Radiation Pressure	
A. Mostafa.....	148
Collinear Libration Points in the Photogravitational CR3BP with Zonal Harmonics and Potential from a Belt	
J. Singh, J. J. Taura.....	155
Mach's Principle of Inertia Is Supported by Recent Astronomical Evidence	
M. B. Bell.....	166
Optical and Infrared Photometric Study of Old Open Star Cluster Berkeley 39	
A. Essam, I. M. Selim.....	173
Unitless Physics I: Relating the Fundamental Constants	
J. W. Christy.....	182
Possible Duplicities of Five Asteroids	
I. Satō, H. Hamanowa, H. Tomioka, S. Uehara.....	193
Bulk Viscous Bianchi Type V Space-Time with Generalized Chaplygin Gas and with Dynamical G and Λ	
S. S. Kotambkar, G. P. Singh, R. R. Kelkar.....	208
Mass Transfer in Binary Stellar Evolution and Its Stability	
S. H. Negu, S. B. Tessema.....	222
