
Special Issue on Clinical and Experimental Medicine

Call for Papers

Experimental medicine encompasses a wide array of research, extending from "basic research" involving fundamental scientific principles that may apply to a preclinical understanding – to clinical research, which involves studies of people who may be subjects in clinical trials.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Clinical and Experimental Medicine**. Potential topics include, but are not limited to:

- Basic and clinical sciences
- Preclinical and clinical trials
- Clinical molecular biology
- Clinical chemistry
- Clinical informatics
- Biomedical sciences
- Epidemiology and biostatistics
- Pathophysiology
- Diagnostics and therapy
- Genetics
- Hematology
- Immunology
- Oncology
- Virology
- Cardiology
- Endocrinology
- Gastroenterology
- Nephrology
- Neurology
- Respiratory medicine
- Pharmacology
- Obstetrics & gynecology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Clinical and Experimental Medicine**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 11th, 2022
Publication Date	October 2022

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
