IJCNS is an international refereed journal dedicated to the latest advancement of communications, network and system science. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Subject Coverage

This journal invites original research and review papers that address the following issues in wireless communications and networks. Topics of interest include, but are not limited to:

3G, 4G and 5G Technologies

Ad Hoc and Mesh Networks

Coding, Detection and Modulation

Cognitive Radio

Communication Networks Architecture Design

Communication Reliability and Privacy

Communication Security and Information Assurance

Cooperative Communications

Embedded Distributed Systems

Global Networks

Heterogeneous Networking

Microprocessor

MIMO and OFDM Technologies

Network Protocol, QoS and Congestion Control

Network Survivability

Next Generation Network Architectures

Reconfigurable Networks

Resource Management

Satellite Communication

Sensor Networks

Simulation and Optimization Tools

UWB Technologies

Wave Propagation and Antenna Design

Wireless Personal Communications

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the IJCNS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
