

Table of Contents

Volume 5 Number 6

May 2014

The Physics of Rotational Flattening and the Point Core Model

H. Essén.....555

Estimation of Subsidence in Po Delta Area (Northern Italy) by Integration of GPS Data, High-Precision Leveling and Archival Orthometric Elevations

M. Fabris, V. Achilli, A. Menin.....571

Physicochemical Properties of Sewage Sludge from Gaza

I. Y. El-Nahhal, H. Al-Najar, Y. El-Nahhal.....586

Quick Clay Development and Cation Composition of Pore Water in Marine Sediments from the Ariake Bay Area, Japan

P. He, M. Ohtsubo, H. Abe, T. Higashi, M. Kanayama.....595

Report on Science Project for Probing the High-Latitude Ionosphere with Complementary Radar and Energetic Neutral Atom (ENA) Measurements

D. Martini, C.-F. Enell, A. Aiko, T. Ulich, Y.-S. Kwak.....607

Relevance of AEM and TEM to Detect the Groundwater Aquifer at Faiyum Oasis Area, Faiyum, Egypt

A. A. Basheer, A. I. Taha, A. El-Kotb, F. A. Abdalla, S. O. Elkhateeb.....611

Submergence Analysis Using Geo-Informatics Technology for Proposed Dam Reservoirs of Par-Tapi-Narmada River Link Project, Gujarat State, India

K. Mehmood, A. Patel, V. Singh, S. Prajapati, M. H. Kalubarme, I. Prakash, K. P. Gupta.....622

Large-Scale Structure Formation via Quantum Fluctuations and Gravitational Instability

F. Porcelli, G. Scibona.....634

Contribution to the Petrography, Geochemistry, and Petrogenesis of Zarqa-Ma'in Pleistocene Alkali Olivine Basalt Flow of Central Jordan

I. A. A. B. Yaseen.....657
