

Special Issue on Otolaryngology Research

Call for Papers

Otolaryngology Research focuses on the study of diseases and disorders of the ear, nose, throat, head and neck. It integrates clinical medicine, surgery, neuroscience and biomedical science to investigate hearing loss, balance disorders, sinus disease, voice and swallowing disorders, and head and neck cancers. The field advances diagnostic techniques, surgical innovations, and therapeutic strategies to improve patient outcomes and quality of life.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Otolaryngology Research**. Potential topics include, but are not limited to:

- Audiology and hearing science
- Vestibular & balance disorders
- Rhinology and sinus surgery
- Laryngology
- Otology and neurotology
- Cochlear implants
- Head and neck oncology
- Laryngology & voice disorders
- Allergy and immunology in otolaryngology
- Tonsillectomy
- Thyroidectomy
- Skull base surgery
- Vestibular and balance disorders
- Facial plastic and reconstructive surgery
- Sleep medicine & airway disorders
- Pediatric otolaryngology
- Translational & regenerative medicine
- Digital health and tele-ENT

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed

Scientific Research
Open Access

International Journal of
Otolaryngology and Head &
Neck Surgery
ISSN Online: 2168-5460

to be specified and the research field “**Special Issue – Otolaryngology Research**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 27th, 2026
Publication Date	July 2026
