**Special Issue on**  
**Sustainable Agriculture and Environmental Chemistry**  
**Call for Papers**

Sustainable Agriculture and Environmental Chemistry examines the integration of environmentally responsible agricultural practices with chemical sciences to promote sustainable food production and ecological protection. This field explores soil and water quality management, eco-friendly fertilizers and pesticides, pollution reduction, nutrient cycling, waste recycling, and sustainable resource utilization. It also studies the environmental impact of agricultural activities and develops innovative chemical and biological approaches to improve productivity while minimizing harm to ecosystems. The subject contributes to global efforts in environmental sustainability, food security, and climate resilience.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Sustainable Agriculture and Environmental Chemistry**. Potential topics include, but are not limited to:

- Sustainable crop production
- Soil chemistry analysis
- Environmental toxicology
- Organic farming systems
- Water quality management
- Agroecology studies
- Green chemistry applications
- Agricultural waste recycling
- Soil fertility management
- Pollution control technologies
- Biofertilizer development
- Pesticide residue analysis
- Climate-smart agriculture
- Environmental monitoring
- Sustainable irrigation systems
- Ecosystem conservation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Sustainable Agriculture and Environmental Chemistry**” should be selected during your submission.

Special Issue Timetable:

|                     |                      |
|---------------------|----------------------|
| Submission Deadline | September 16th, 2026 |
| Publication Date    | November 2026        |

**Guest Editor:**

Dr. Pawan Kumar Verma

Professor, Division of Veterinary Pharmacology & Toxicology, Faculty of Veterinary Science & Animal Husbandry, Sher-e-Kashmir University of Agricultural Sciences & Technology of Jammu, India
