

TABLE OF CONTENTS

Volume 2 Number 3

February 2014

Probabilistic Distributions for *Acacia mearnsii* De Wild Total Height and the Influence of Environmental Factors

C. R. Sanquetta, A. Behling, A. L. Pelissari, A. P. D. Corte, S. P. Netto, A. A. Simon.....1

Determination of the Structural Constant of the Atom

M. Perkovac.....11

Similarity Reduction of Nonlinear Partial Differential Equations

A. S. Al-Johani.....22

Numerical Uncertainty and Its Implications

A. F. Rodrigues, N. O. Martins.....33

Application of Trial Equation Method for Solving the Benjamin Ono Equation

Y. Li.....45

Classification of Single Traveling Wave Solutions to the Generalized Strong Nonlinear Boussinesq Equation without Dissipation Terms in $P = 1$

X. H. Du.....50

Application and Generalization of Eigenvalues Perturbation Bounds for Hermitian Block Tridiagonal Matrices

J. C. Li, J. Wu, X. Kong.....60

The figure on the front cover is from the article published in Journal of Applied Mathematics and Physics, 2014, Vol. 2, No. 3, pp. 11-21 by Milan Perkovac.
