

Table of Contents

Volume 5 Number 10

October 2017

Research on Flight Delay Based on Fuzzy Evaluation Algorithm

S. Ma, X. B. Wang, H. C. Hu.....1923

The Speed of Light in a Novel Gravitational Environment

G. Donati.....1938

Local Existence for Boussinesq Equations with Slip Boundary Condition in a Bounded Domain

J. Lu.....1951

Mathematical Model for the Transmission Dynamics of Zika Virus Infection with Combined Vaccination and Treatment Interventions

S. Usman, I. I. Adamu, H. A. Babando.....1964

On the Kinetic Energy of the Projection Curve for the 1-Parameter Closed Spatial Homothetic Motion

S. Soyulu, A. Tutar.....1979

On the Solution of the Eigenvalue Complementarity Problem by a Line Search Filter-SQP Algorithm

Q. Yu, Z. S. Yu, Y. C. Liu.....1986

Propagation of Acoustic Waves Caused by the Accelerations of Vibrating Hand-Held Tools in Viscoelastic Soft Tissues of Human Hands and a Mechanobiological Picture for the Related Injuries

E. Mamontov, V. Berbyuk.....1997

To the Solution of Three-Dimensional Problems of Oscillations in the Theory of Elasticity in Thick Plates of Variable Thickness

M. K. Usarov.....2044

Computation of the Eigenvalues of 3D “Charged” Integral Equations

D. Caratelli, P. Natalini, P. E. Ricci.....2051

Analytical Solutions of the 1D Dirac Equation Using the Tridiagonal Representation Approach

I. A. Assi, H. Bahlouli.....2072
