

Table of Contents

Volume 12 Number 3

March 2024

Maxwell Equations and Magnetic Monopoles

S. Tosto737

Cross Validation Based Model Averaging for Varying-Coefficient Models with Response Missing at Random

H. X. Li, X. L. Wang764

Space Topologies and Their Dual Space Topologies for Conventional Functional Space Topologies

M. A. Elamin778

Global Well-Posedness of the Fractional Tropical Climate Model

M. Q. Hu805

Application of Elzaki Transform Method to Market Volatility Using the Black-Scholes Model

H. I. Ojarikre, I. Rapheal, E. J. Mamadu819

Cosmological Model in Four Time and Four Space Dimensions

J. A. Nieto829

Modeling a Periodic Signal Using Fourier Series

U. Leith841

Propagation and Pinning of Travelling Wave for Nagumo Type Equation

S.-Y. Veerayah-Mcgregor, V. Manoranjan861

Exponential Estimation of the Lyapunov Function for Delay-Coupled Neural Networks with Integral Terms

N. Li, L. Wang870

Comparative Studies between Picard's and Taylor's Methods of Numerical Solutions of First Ordinary Order Differential Equations Arising from Real-Life Problems

K. A. E. A. A. Elnour877

Fuzzy Henstock-Kurzweil Triple Integral on a Type 1 Quasi-Fuzzy Parallelepipedal Domain

K. S. Didier, K. N. Dany, P. L. Grégoire, M. K. J. Paul, L. N. J. Pierre897

Zeno and the Wrong Understanding of Motion—A Philosophical-Mathematical Inquiry into the Concept of Finitude as a Peculiarity of Infinity

A. Herberg-Rothe912

An Eighth Order A-Stable Rational Integrator

K. A. Aliu, S. I. Odiachi.....930

Extension of Paraconsistent Many-Valued Similarity Method to Group Decision

A. Inusah944

Inverse Spectral Problem for Sturm-Liouville Operator with Boundary and Jump Conditions Dependent on the Spectral Parameter

H. Zhao, J. J. Ao.....982

Modeling and Simulation of Heterojunction Solar Cell with Mono Crystalline Silicon

S. Ullah, A. Gulnaz, G. W. Wang.....997
