

Special Issue on
Advances in Biology and Immunology
Call for Papers

Advances in Biology and Immunology focuses on the latest discoveries and emerging trends in biological sciences and immunological research. This topic covers a broad spectrum of areas, including molecular and cellular biology, genetics, microbiology, immunopathology, vaccine development, host–pathogen interactions, immune regulation, biotechnology, translational medicine, and innovative therapeutic strategies. It also welcomes interdisciplinary studies that integrate bioinformatics, systems biology, and biomedical engineering to advance the understanding of biological mechanisms and immune responses. The aim is to promote cutting-edge research that contributes to disease prevention, diagnosis, treatment, and the advancement of life sciences and human health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Advances in Biology and Immunology**. Potential topics include, but are not limited to:

- Molecular Biology
- Cell Biology
- Genetics and Genomics
- Microbiology
- Immunology
- Cellular Immunology
- Clinical Immunology
- Immunotherapy
- Vaccine Research and Development
- Host–Pathogen Interactions
- Infectious Diseases
- Cancer Biology and Tumor Immunology
- Biotechnology and Bioengineering
- Systems Biology and Bioinformatics
- Regenerative Medicine and Stem Cell Biology
- Translational and Precision Medicine

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Advances in Biology and Immunology***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 10th, 2026
Publication Date	January 2027

Guest Editor:

Dr. Jasneth Mullings
Lecturer/Dean/Epidemiologist
Health Research Resource Unit
The University of the West Indies, India
