

Special Issue on Psoriasis

Call for Papers

Psoriasis is a common skin condition that characterized by patches of abnormal skin. These skin patches are typically red, itchy, and scaly. Psoriasis is not contagious and currently not curable. It can last a long time, even a lifetime. Symptoms come and go. Things that make them worse include infections, stress, dry skin and certain medicines.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Psoriasis**. Potential topics include, but are not limited to:

- Annular pustular psoriasis
- Erythrodermic psoriasis
- Guttate psoriasis
- Inverse psoriasis
- Koebner phenomenon
- Napkin psoriasis
- Oral psoriasis
- Phototherapy
- Plaque psoriasis
- Psoriatic arthritis
- Pustular psoriasis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Psoriasis**” should be selected during your submission.
