

Special Issue on Blood Cancer

Call for Papers

Blood cancer is an umbrella term for cancers that affect the blood, bone marrow and lymphatic system. The common blood cancer symptoms include: fever, chills, persistent fatigue, weakness, loss of appetite, nausea, unexplained weight loss, night sweats, bone/joint pain, abdominal discomfort, headaches, shortness of breath, frequent infections, itchy skin or skin rash, swollen lymph nodes in the neck, underarms, groin.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Blood Cancer**. Potential topics include, but are not limited to:

- Multiple myeloma
- Leukaemia
- Lymphoma
- Myelodysplastic syndromes
- Myeloproliferative neoplasms
- Chemotherapy
- Radiotherapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Blood Cancer**” should be selected during your submission.

Special Issue Timetable:

| | |
|---------------------|--------------------|
| Submission Deadline | January 18th, 2018 |
| Publication Date | March 2018 |
