

Special Issue on Cancer Prevention and Early Detection

Call for Papers

The prevention of cancer and the development of more effective strategies to detect cancer precursors and early-stage cancers, when treatment may be most effective, remain critical goals.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **cancer prevention and early detection**. Potential topics include, but are not limited to:

- Physical inactivity, dietary factors, obesity and being overweight
- Alcohol use
- Tobacco
- Radiation
- Environmental pollution
- Preventing viral infections
- Vaccination
- Preventing cancers with drugs
- Cancer screening

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Cancer Prevention and Early Detection**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 27th, 2018
Publication Date	June 2018
