

Submission Deadline: August 15th, 2018

Publication Date: October 2018

Call for Papers

Special Issue on Cancer Metastasis

In Journal of Cancer Therapy (JCT, ISSN Online: 2151-1942)

Detailed information about this journal: [Indexing](#), [Editorial Board](#), [Author's Guidelines](#)

Cancer occurs after cells are genetically altered to proliferate rapidly and indefinitely. This uncontrolled proliferation by mitosis produces a primary heterogeneous tumour. The cells which constitute the tumor eventually undergo metaplasia, followed by anaplasia then dysplasia, resulting in a malignant phenotype. This malignancy allows for invasion into the circulation, followed by invasion to a second site for tumorigenesis.

We sincerely welcome scholar and expert with relative academic backgrounds to submit original research paper or review paper to this special issue on **Cancer Metastasis**. Potential topics or areas include, but are not limited to:

- Brain metastasis
- Metastatic breast cancer
- Signs, symptoms, pathophysiology and diagnosis
- Cancer cell proliferation
- MicroRNAs and cancer
- Proteasome inhibitors
- Lymph node metastasis
- Circulating tumor cells
- Epithelial mesenchymal transition
- Tumor angiogenesis and metastasis
- Metastasis and primary cancer

Submission Methods:

Submit a paper to this special issue or regular issue of our any journal via [Paper Submission System](#) or attach paper in an email sent to submission.entrance1@scirp.org (please indicate the name of our journal or special issue; any inquiry is also welcome).

Friendly tip: please bookmark this page in your web browser if you consider contributing to our journal or special issue in the near future.
