

Special Issue on Radiotherapy & Oncology

Call for Papers

Radiotherapy is a therapy using ionizing radiation, generally as part of cancer treatment to control or kill malignant cells and normally delivered by a linear accelerator. Radiation therapy may be curative in a number of types of cancer if they are localized to one area of the body.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Radiotherapy & Oncology**. Potential topics include, but are not limited to:

- Applied radiation therapy
- Medical uses
- Complications and toxicity
- Brachytherapy
- Intraoperative radiotherapy
- Patterns and effectiveness
- Challenges and clinical outcomes
- Assessment and evaluation
- Radiotherapy and chemotherapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Radiotherapy & Oncology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 24th, 2020
Publication Date	November 2020
