

Special Issue on Cancer and Surgical Management

Call for Papers

Surgery, when used to treat cancer, is a procedure in which a surgeon removes cancer from your body. There are many types of surgery. The types differ based on the purpose of the surgery, the part of the body that requires surgery, the amount of tissue to be removed, and, in some cases, what the patient prefers.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cancer and Surgical Management**. Potential topics include, but are not limited to:

- Preventive surgery
- Diagnostic surgery
- Staging surgery
- Palliative surgery
- Supportive surgery
- Reconstructive surgery
- Minimally invasive surgery
- Laparoscopic surgery
- Endoscopic surgery
- Postoperative management
- Gastrectomy
- Surgical treatment for cancer metastasis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cancer and Surgical Management**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 19th, 2020
Publication Date	December 2020
