

Special Issue on Environmental Chemistry and Pollution Control

Call for Papers

Environmental Chemistry and Pollution Control encompasses the study of chemical processes occurring in the environment and the development of technologies and strategies to prevent, monitor, and mitigate pollution in air, water, and soil. It covers topics such as environmental contaminants, pollutant transport and transformation, water and wastewater treatment, soil remediation, atmospheric chemistry, hazardous waste management, environmental monitoring, green chemistry, risk assessment, and pollution prevention. The field integrates chemistry, environmental science, engineering, and public health to improve environmental quality, protect ecosystems and human health, and support sustainable resource management and environmental sustainability.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Chemistry and Pollution Control**. Potential topics include, but are not limited to:

- Environmental chemistry
- Air pollution control
- Water pollution control
- Soil contamination
- Wastewater treatment
- Environmental monitoring
- Pollutant transport
- Pollutant transformation
- Hazardous waste management
- Green chemistry
- Environmental toxicology
- Environmental risk assessment
- Soil remediation
- Atmospheric chemistry
- Water quality management
- Pollution prevention

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Environmental Chemistry and Pollution Control***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 18th, 2026
Publication Date	January 2027

Guest Editor:

Dr. Carmen ZAHARIA

Chemical Engineering and Environmental Protection

"Gheorghe Asachi" Technical University of Iasi, Romania
