

Special Issue on

Advances in Environmental Pollution Control and

Sustainable Engineering

Call for Papers

Advances in Environmental Pollution Control and Sustainable Engineering focuses on innovative research and practical solutions for preventing, monitoring, and mitigating environmental pollution through sustainable engineering approaches. It covers topics including air, water, and soil pollution control, waste management, environmental remediation, green technologies, renewable energy integration, sustainable infrastructure, resource recovery, circular economy practices, environmental monitoring, risk assessment, and pollution prevention strategies. The field promotes interdisciplinary collaboration among engineers, environmental scientists, policymakers, and industry professionals to develop technologies and management practices that enhance environmental quality, support sustainable development, and address global environmental challenges.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Advances in Environmental Pollution Control and Sustainable Engineering**. Potential topics include, but are not limited to:

- Air pollution control
- Water pollution management
- Soil contamination remediation
- Wastewater treatment technologies
- Solid waste management
- Hazardous waste treatment
- Environmental monitoring systems
- Green engineering technologies
- Sustainable materials development
- Circular economy practices
- Industrial emission reduction
- Environmental risk assessment
- Renewable energy integration
- Resource recovery and recycling
- Climate change mitigation
- Sustainable infrastructure engineering

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Advances in Environmental Pollution Control and Sustainable Engineering**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	December 8th, 2026
Publication Date	February 2027

Guest Editor:

Prof. (H.C.) Engr. Dr. S M Nazmuz Sakib, CMSA®, FPWMP®, FTIP®, BIDA®, FMVA®, CBCA®

Dhaka International University, Bangladesh
